

TECHNICAL SHEET

Type of product	Air
Nominal power	2.0-8.0 kw
Total power	2.3-9.2 kw
Efficiency	87%
Recommended surface	75 m ²
Recommended volume	200 m ³
Tank capacity	15 kg
Consumption of pellet	0.6-1.8 kg/h
Maximun time consumpt	8-25 hr
Vent diameter	8 cm
Ignition coil	Cerámica
Sound level	-
Dimensions (heater)	456x526x1080 mm
Dimensions (carton box)	640x610x1410 mm
Weight (net)	83 kg
Weight (gross)	90 kg
Guarantee	2 años
 Ivory	EAN: 4963505828370
 Bordeaux	EAN: 4963505828387
 Black	EAN: 4963505828394

KIYOMI

AIR PELLETS STOVE

CAST IRON BURNER HIGH THICKNESS (3mm): Ensuring long life of burner.

LARGE ASH COLLECTION TRAY: Allows easy cleaning with longer use of the stove.

TURBULAR HEAT EXCHANGER: 8 turbulators can improve the effectiveness of stove and ensure quick and easy cleaning.

FUN WITH ZERO SPEED: Fun can be turned off when stove is operating in order to advantage natural convection and operate with a minimum noise.

CERAMIC IGNITION COIL: . This piece ensures quick ignition of pellet. This system is more reliable respect to the steel coil and ensures lower electrical consumption and longer lifecycle.

SELF-ADJUSTING CLOSING DOOR: Perfect closing of the door due to the hinges and handle, that improve the tightness of the combustion chamber.

SYSTEM FOR COLLECTION PELLETS (STAR POWER SYSTEM): Improves performance respect to traditional system of endless screw

AUTOMATIC GLASS CLEANING.

MULTIFUNCTIONAL LCD TOUCH PANEL

JAPANESE TECHNOLOGY: This stove is designed in Japan and manufactures in Italy, under Zibro canons of quality. Guaranteed for 2 years
